THE COCKLEBURR CLUB.

A New and Thrilling Story

Since the time that the estimable gentleman had consented to act as freasurer of our organization got un-barrassed and irregulated with the funds thereunto belonging we have had no regular meeting place. Because, since the Sheriff, so ruthlessly cause, since the Sheriff, so ruthlessly turned us out into the street for non-payment of rent; we have been unable until very recently to find any one soft enough to give us a resting place without our planking up the rent in advance. But patience and perseverance will accomplish wonders in in financial as well as the animal world; so we've again achieved a local habitation and a name. And we're not going to give it away, either, for you to go and

it away, either, for you to go and post our landlord, perhaps.

As all this scuffling round has brought us to the verge of financial collapse, it was resolved unanimously, at last meeting, that something gurgie, rose and rose until it was chin deep around there, when suddenly— Mr. Snodgrass next! should be done to restore the late statu quo of our treasury. It was, to curtail an elongated narrative, suggested that your servant try to find a buyer for his soul-thriling memories, sutitled "Confessions of a Reformed Paragrapher," and donate or lead the proceeds thereof to the club to achieve its rehabilitation. Theremon the underwriter proceed-Thereupon the underwriter proceeded to read the manuscript for the edification of those who hadn't had the pleasure of peauring it, but before the second chapter was reached I found that at least half a dozen Cockleburrs that at least haif a dozen Cockleburrs imagined that they were hit between wind and water, as it were, and that the whole thing was only a malignant, lusidious exposure of their little mental corns. By assuring them that I did not refer to them order was restored, but before the fith chapter was reached the President, Col. Bungstarter, jumped to his feet and roared at me: "Why do you dare, air, drag my lamily skeletons to the light of day?"

I replied that I never dragged a What do you mean, then, sir, by our impertment reference to "Old

Doozlebung?"

Why, I replied, "Colonel, that's a purely imaginary character; I didn't think there was a Doozlebung in the

wide world.
Didn't know Helena, Arkansaw! I let you know now, then, that my wile's sister married a Doozlebung and I don't intend to sit quietly by and hear family troubles exposed; no, not even to save the Cocklerburr Club from the dengue."

Further reading of the confession had to cease, for it was evident the there was a save the confession had to cease, for it was evident the

there wasn't a man in the room but was certain that portions of the manuscript referred directly to him.

Verily, the way of the paragrapher is hard. As it was unanimously resolved that the private peccadillocs and fallings of the members of the club should not be used as a falcrum to boost the financial condition there of, we had to cast about for some other means to accelerate the velocity of the air currents. Whereupon the undersigned piqued at the uncere-moulous manner in which his cher

moulous manner in which hi-cher ished literary effort had been sat down on, suggested that some one else try his band at the bellows for a wind-raiser. After considerable discussion it was decided that, whereas, it would take too long to write a novel, or anything else, single-handed; and, whereas, that all were equally implicated in the affair; and, whereas, that we possessed abundant raw material—of the rawest kind, too—for the venture; and, whereas, that time and landlords wait for no man, it was unanimously.

that time and landlords wait for no man, it was unanimously.

Resolved, That the members of this club each write one chapter, to the best of his ability, and according to his own style and his conception of the exigencies of the case.

Considerable ill-feeling was man! feated as to who should name the little or block out the plot, and after much wrangling it was decided that Col. Bungstarter should name the off spring as well as write the opening chapter. Plot, there was to be none each chapter to be so beautifully rounded off that absence of plot would not be noticed.
